

CONCEPT BESPOKE RESIDENTIAL WINE DISPLAYS & CABINETS

Concept have used our expertise gained in the Commercial Environment where we have been providing high specification displays for Major Hotels and Restaurants throughout the UK, and adapted this to the High End Residential Market.

Our ability to provide High Quality Specific Solutions to meet exacting briefs and designs has now established us a key player in this burgeoning sector, with more and more highly individual pieces being developed.

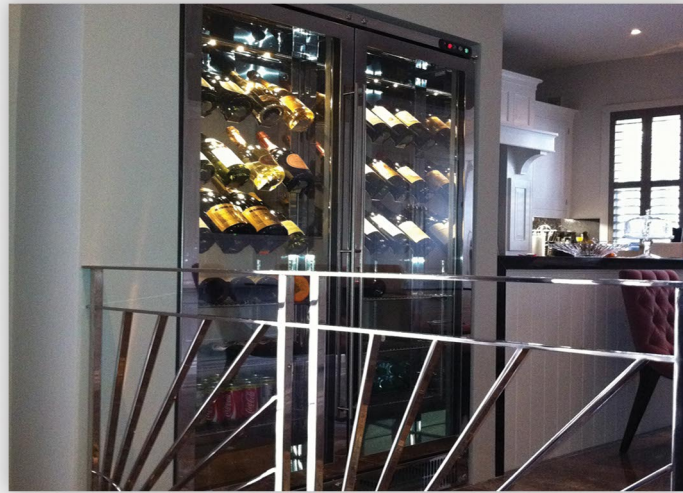

We can provide full Rooms, or Displays or Specialist Racking, or Individual Cabinets all incorporating specialist lighting and details. We work with the interior fit out contractors and any designer to provide a fully coordinated seamless bespoke solution.

We can also incorporate 'Humidors' and of course Full Bars where applicable as this is our forte, to this end we often provide a Full Fit Out of the whole area.
